

Required and Recommended Work

The best way to insure that your Mercedes-Benz operates at peak performance and maintains it's highest value is to follow the Recommended Maintenance Schedule. Required and Recommended Service Work is intended to help maximize the service life of components or systems important to your vehicle's continued proper operation.

Required and Recommended Service Work includes inspection or maintenance of many different components and systems in your vehicle. The replacement of certain components at varying intervals is also part of Required and Recommended Service Work.

*Please note any maintenance work performed or not performed at the specified interval which results in the failure of the warranted component(s) or system(s) in question may not be covered by the Mercedes-Benz New Car Limited Warranty.
